Just witnessed an illegal trespassing of a journalist for violating the libraries policy. Unfortunately this is probably going to end up in a lawsuit. I have sent the video to the state attorney and the the department of justice. You can not trespass from public property for a policy violation or the way you perceive he was treating you. He is allowed to ask you questions and this does not rise to criminal trespass. The law states that you are paid by the tax dollars and that there has to be not just transparency but you cannot trespass unless there has been a crime committed. It's concerning to witness things like this because it ends up costing the county or state or city money in lawsuits.. please review the laws on trespass on public property.

The First Amendment states, in relevant part, that: ("Congress shall make no law... abridging freedom of speech.") I'm sure if you check in your library that you would find a book on the Constitution of the United States of America. So, before you start lollygagging around and telling people they don't have free speech except for where you say they have free speech, you silly silly pervert.

Why are you so proud of the fact that you think that you can violate the Constitutional rights of the public?

You really should educate yourself on this. You do not have the authority to trespass someone from a public library!

Property leased by a government agency is the same as public property, not private property.

It is a shame that you are in the position that you hold. You should either educate yourself or resign immediately!

Sincerely,  
Concerned Citizen

ps: follow up investigations will be coming soon.

Thank you, Jeff, and thank you, Stacy, for reaching out to me and enduring my many emails this morning. Firstly, I recognize this is probably only a very small corner of any and all harassment both of you have been facing before I was included in it. Because I am proud of my usual resilience, I am going to apologize for my acceptance of your offer to take some personal time to process this – but I do need to step away in order to understand what I am experiencing and find a way to move forward.

I have a pre-planned vacation leave for the first week of September (1<sup>st</sup> -7th). Respectfully, I am requesting to use annual leave starting today at 11:45 am and through next week running into that pre-planned leave.

I would like to know if you would permit this usage *intermittently* during that time next week, or also, with the permission to rescind any part of it next week if I find that I am more stable to return to work or can do some work from home? I have the bookmobile report on my mind as it is coming due, as I have the ability to do so I'd like to do some of that work if I can.

Stacy, I have talked with Carly about this and she will work with you for coverage needs.

I want nothing more than to show up for our team and for our community, but in this I need to care for myself right now, and I know you understand, thank you.

Respectfully,

Jonnica

I am sorry this is happening with the emails. I am not surprised, but it is very unsettling. If you need to take time off, you can. We can make arrangements for coverage. Stacy and I can work with you next week. You shouldn't have to take this abuse, and unfortunately, this is the nature of our job from now until November. @CNN, this is the PUBLIC SERVANT that lied on citizens camera, lied on police bodycam video, lied on camera at a PUBLIC meeting and claims her policy is that the space is private property. The minute GOVERNMENT lease private property it becomes PUBLIC.

OK to share with Media and the Police. Thx!

The greatest service those videos provided is to the families, neighbors, colleagues and especially kids of those miserable beings you call 'public servants'. Now they get to see what kinda JERKS & TYRANTS you guys employ. He said: "The scariest nine words in America are: "I'm from the gubmint and I'm here to help."

And he was right! You proved it! Why do you turn complete idjutz, who don't know %\$#@ and insult hardworking, law-abiding Americans, lose on the taxpayers who have to cough up their salaries? Is this the way you want to promote the professionalism of the department or the city itself?!?!

Just because We, The Makers, provide you, the takers, with a check for little to no real work (just watch the video; nobody is actually doing any 'work'), doesn't justify your arrogance and perceived superiority complex. The disdain you display for Us, the Public. The disrespect for We, The People. The entitlement and the take Me, the Tax-Payer, for granted attitude. Absolutely disgraceful! What's wrong with you people? WHY do you want to give your office such a bad reputation?

And YOU're responsible! YOU hired those clowns and didn't provide them with proper training. Wasted MY tax-dollars! Or shall we blame the lack of training on the Free Press who exposes it?? The cool thing is that everyone gets to see those immature, childish lil pissants you hired for the rest of their lives!

At least have the decency to send back the TAX-DOLLARS that, We, the People, provided you with, cuz, as we can all see for ourselves, that's obviously a giant waste. It certainly didn't go into edukasjon, professionalism or training. Have some dignity; send back our money!! NOW!!

I realize that you're scraping the bottom of the barrel, go ahead and fire ALL those oxygen-thieves! You can do better than that!

You should put the woke, BS gender books in the trash, where they belong and try reading The Constitution & Bill of Rights, maybe then you'd know policies, whether yours or a private business, don't matter to members of the public. We aren't required to follow policy, because they aren't LAW and we are still in America. If you can't handle peoples' Right to Free Speech(which includes being redressed by members of the public)being called a pervert, which you most certainly are, if you allow or promote exposing children to drag queens, then you need to go work for a private business or yourself. In what world do you think you can demand people respect you or your imagined authority? YOU are the public employee, paid from OUR stolen tax dollars and those policies only apply to you. BTW, when any public service agency, provider, department or sub-contractor leases private property, it becomes public. Any member of the public that wants to, can be in and use that public space during business hours and you can't trespass them without them having broken a LAW. Feckless, brainless, immoral trash people, like you, is why this country/this world is falling apart.

Greetings YouTube Legal Support Team,

Government employees filing strikes against social media postings is censorship.

Please do not remove my videos or force me to censor government employees while they perform their professional obligations.

I believe these videos of public meetings with public employees speaking are of public interest and do not have any privacy rights attached to them.
